## Jürgen Skrzyppek

GNS Gesellschaft für Nuklear-Service mbH  
Divisional Director of Communications and Sales

### Spent Fuel Management's Role in Germany German Experiences from the Entire Life Cycle for Korea

Dr. Jürgen Skrzyppek is Divisional Director of Communications and Sales of GNS Gesellschaft für Nuklear-Service mbH, the company which is responsible for the management of waste and spent fuel arising from the operation and decommissioning of nuclear power plants in Germany.

In his position, his responsibilities include sales of all GNS products like CASTOR® and MO-SAIK® Casks, treatment facilities and services like conditioning and packaging of waste, loading of spent fuel into casks and management of contracts for the return of reprocessed waste from France and UK. Furthermore he is responsible for the communication with the stakeholders and the public.

In previous positions he was manager in geoscience projects for the characteristic and safety assessment of final repositories in different geological formations in several countries (Germany, Switzerland, Hungary, and Japan).

In addition to his master degree from the Technical University of Aachen, Germany (1988) he has a doctor's degree in mining engineering from the Technical University of Berlin, Germany (1993).
